Massade, Gros Islet
P.O Box 646
Castries, St. Lucia.

Overview:

Wayne Brown Design/Build began in 1968 after completion of a surveying project at Anse Chastanet, Soufriere that Wayne Brown was commissioned to undertake by a Montreal based engineering firm. Mr. Brown subsequently decided to settle in St. Lucia and to continue his passion for architecture and construction. Forty years later Wayne Brown Design/Build Ltd. emerged as the leading general contractor, building over 100 homes in St. Lucia and the region as well as four boutique hotels and three churches. The company has since worked on numerous homes all over the island including islands such as St. Vincent, Bequia and Grenada.

Bruno Beaune, Cas en Bas, Gros Islet

Wayne Brown Design/Build Ltd is currently owned and operated by Christian Brown, the founder's son. Subsidiary companies which complement the range of services that the firm offers, include Rental Power Ltd. and Silver Grizzly Timber Works. Rental Power Ltd. is an agent for John Deere, Hitachi, Terex, Doosan, Sakai and other brands of construction equipment and related products. The company also carries a full line of Echo and Shindaiwa lawn and garden equipment. Silver Grizzly Timber Works was created to facilitate the fabrication of doors, windows and furniture for clients of Wayne Brown Design/Build Ltd. The company builds custom furniture, antique replicas and structural timber support members for the general public.

Christian Brown grew up working with Wayne Brown for over twenty years. He studied General Science & Civil Engineering Technology at Ryerson Polytechnic University, Toronto, Canada and continued his studies at George Brown College in Construction Management and Environmental Engineering.

Olmedo & Lisa Villa Residence, Mount Hardy, Cap Estate.

THE TEAM:

The core team members of the new company are Sharona Goodridge, financial controller, Emmy Mitchel, purchasing manager, Delia Gaston, junior civil engineer, Margalie Alfred, senior quantity surveyor, Mohammed Abdulwahid, senior civil engineer, Joseph Pistol and Brad Parker, senior project co-ordinators.

Ms. Goodridge has had extensive construction experience which started under the tutelage of her father and engineer, Cromwell Goodridge, then onto Ellis Don Construction Ltd. (St. Lucia) and finally with Wayne Brown Design/Build for the last 15 years. Ms. Goodridge has developed sound and rigorous managerial and accounting systems under the guidance of Mr. Wayne Brown.

Emmy Mitchel is a graduate of building technology from the Sir Arthur Lewis Community College. She not only handles purchasing, but co-ordinates transportation, delivery and storage.

She has developed her skills and talent around the project management field and is currently working on her degree in project management on a part time basis.

Miss Delia Gaston began working with the company five years ago as a building technician and supervisor. She is currently in her final year of study at University of West Indies in Civil Engineering and will be rejoining the company summer of 2012.

Miss Alfred, who has a degree in quantity surveying and construction management from the University of West Indies Technical Institute has developed strong relationships with the major suppliers of construction materials on the island and the United States.

Mr. Mohammed Abdulwahid is our most senior team member and is a professional engineer with a track record that includes projects in Canada, the United States and the Caribbean. Mr. Abdulwahid has worked with Mr. Christian Brown since 2002 on major government projects as well as residential projects in St.Lucia and St.Vincent. Mr. Abdulwahid has been practicing for the last 35 years and he has a strong background in structural engineering.

Mr. Joseph Pistol has been with the firm since he was 18 years old and began as an assistant carpenter. Twenty-two years later Mr.Pistol is now our most senior project co-ordinator and with his maturity a keen eye for workmanship quality and attention to detail has emerged.

Brad Parker obtained his business administration degree from University of Massachusetts with a focus on operations management. Brad has worked in the construction industry on civil projects in the U.S before moving to St.lucia in 1989. He built the Indies Night Club in 1994 and ran it for ten years whilst engaging in residential building in a minor way. He is now a full time team player with our firm and a great asset to the company.

The team also includes twelve superintendents, all of whom have worked for Wayne Brown Design/Build for at least 10 years. All our superintendents are multi-talented tradesmen but most have focused their skill set in the area of carpentry. As such they have developed a keen eye for detail which helps keep a high standard of workmanship and quality of finishes on the project.

Why Wayne Brown Design/Build?

- Founded in 1968, Wayne Brown Design/Build Ltd. has been a trusted name in design-build construction for over four decades.
- Our in-house team is capable of providing our clients with a broad range of architecture, engineering and construction services.
- Their knowledge and dedication allows Wayne Brown Design/Build to continually deliver the level of excellence that our reputation for quality is based upon.
- A high percentage of our annual business is derived from repeat clients.
- Most of our business comes from the expatriate clientele with luxury class standards.
- Our commitment to quality and integrity is a stated part of our culture, and affords our clients a superior product and high level of service.

The Associates

Bel-Con Engineering, Belleville, Ontario, Canada, www.bel-con.com

Barry Brown, the founder of this company is the younger brother of Wayne Brown. Bel-Con builds commercial structures for Leon's Furniture, Sears Canada, Home Hardware and many other major Canadian companies.

Task Force Engineering, Belleville, Ontario, Canada, www.taskforce-eng.com

Structural engineer David Brown is Christian Brown's first cousin and the founder of this company. Task Force Engineering designs and builds for commercial, industrial and residential clients and is a Tarion Warranty Corporation registered builder.
